## **General Familiarisation 40HR Airbus A340-500/600 as fitted with Rolls Royce Trent 500 Engines**

**Price GBP £220 / EURO €255**

### Description

Our 40 Hour General Familiarisation Course offers a fantastic opportunity to become familiar with the Airbus A340-500/600 aircraft as fitted with Rolls Royce Trent 500 engines.

The General Familiarisation will cover the basic system overview & description of controls, indicators, principal components, including their location and purpose according to & UK CAA Regulation (EU) No. 1321/2014 Part-66 Appendix III and EASA Regulation (EU) No. 1321/2014 Part-66 Appendix III.

### Target audience

The General Familiarisation course can be used by UK CAA & EASA Part 66 category A licensed staff and airline / aircraft support staff or anyone requiring a basic knowledge of an aircraft type. It can be used as a Refresher course after being away from the type for a period and offers an excellent way refresh your knowledge of the aircraft systems.

### Aims

The course will allow you to define the general layout and characteristics of the aircraft's major systems and powerplant along with identifying safety precautions related to the airframe, its systems and powerplant.

When you complete the course and associated online continual assessment exam's you will be issued with a certificate for the course.

### Specification's course taught to:

Course is taught to achieve regulations specified in EASA Regulation (EU) No 1321/2014) Part-66 Appendix III Level 1 & UK CAA Regulation (EU) No. 1321/2014 Part-66 Appendix III Level 1

### Duration

Suggested duration for completion is 40 hours of learning.

### Interval for continuation

There is no requirement to have interval continuation training for this course. The course can be used for many purposes such as refreshing knowledge after being away from the type for a period or introducing the type initially.

### Method of Delivery

Online via Computer Based Training; for classroom or instructor lead training please contact us [info@oat.aero](mailto:info@oat.aero)
